Global Manufacturer of Digital Panel Meters & Data Loggers

LASCAR LAUNCHES WATERPROOF 100x32 GRAPHIC DISPLAY

Lascar Electronics has launched the first in a new series of dot matrix graphic displays. With a high contrast supertwist LCD and Epson SED 1530 controller, the DMX 973B combines a practical 100 x 32 pixel display with very low power consumption. LED backlighting ensures excellent visibility under low light conditions. An optional IP67 rated bezel, the BEZ 900-IP, provides protection against the ingress of water in hostile environments.

The DMX 973B features a 16-pin dual in line connector, parallel & serial microprocessor interfaces and electronic contrast control. A plastic bezel, window and mounting clips are included with the module. The DMX 973B and BEZ 900-IP are available immediately at a price of £29.95 and £14.90 respectively (£17.97 and £8.94 in OEM quantities of 250+).

For further information on the DPM 973B, BEZ 900-IP and all the digital panel meters and data loggers designed and manufactured by Lascar Electronics, please call our sales hotline on: +44 (0)1794 884567, fax us on +44 (0)1794 884616 or visit our website at: www.lascarelectronics.com
